

## **Programme Project Report (PPR) for Bachelor of Library and Information Sciences**

### **A. Programme Missions and Objectives:**

The Bachelor Degree programme in Library and Information Sciences is a unique and most popular degree programme all over India. The amount of seats available in conventional University and Colleges are not sufficient to meet the demand for studying Library and Information Sciences as Bachelor Degree Programme.

- The main objectives of the courses to impart standard course curriculum of the subject which is at par with other conventional University.
- To provide opportunity to those who are already employed in different professions to improve their chances of progressing to higher positions in their job.

### **B. Relevance of the programme with HEI,s Missions and Goals.**

The mission of the University is to spread higher education at affordable cost to the learner who are unable to attend classes in regular mode. This particular course/programme may give an opportunity to gain knowledge in the area of Library and Information Sciences

### **C. Nature of prospective target Group of Learners**

The pass out of Higher Secondary level may join the course. This programme is open to all who have passed such level and want to increase his/her knowledge in Library and Information Sciences

The learner who have passed in other bachelor Degree exam can also apply.

### **D. Appropriateness of programme is to be conducted in open and distance learning mode to acquire specific skills and competence.**

The programme could be considered appropriate to be conducted ODL as this system is so flexible in nature that one can use its advantages. The Self Learning Material (SLM) for the programme has been developed keeping in mind the needs of the learners ensuring that it is self explanatory, self contained, comprehensive and simple. The guide lines of UGC (ODL) Regulation 2017 have been strictly adhere to during the period of developing SLM. The SLM and personal contact programme (PCP's) are planned and scheduled in a way to extend support to the learner.

### **E. Instructional Design**

#### **i. Curriculum Design**

The university is revising the curriculum and syllabus of its Bachelor of Library and Information Sciences programme once in every three years to ensure that the content is updated and reflect current academic knowledge and practice.

The curriculum of Bachelor of Library and Information Sciences has been prepared by considering the challenges of offering the programme through distance mode. The annual system of examinations and evaluation is followed by the university. Students are required to submit

assignments and appear for test papers to be able to pass internal examinations for which 25 percent marks are earmarked.
